Because it would not
feel right without them 

For so many couples, their wedding day would not feel complete without their dog by their side. They are there for the everyday moments, the quiet mornings, the muddy walks, and the **unconditional love**.

Through the good days and the more difficult ones, they are always by your side. So when it comes to one of the most important days of your life, it only feels natural to want them there too.

Of course, as much as we love them, weddings are not always designed with dogs in mind.

That is where I come in.

Hounds of Honour was created to make it all feel effortless. From the first enquiry through to the final goodnight, everything is **handled with love and care** so that you can fully enjoy your day, knowing your dog is in safe hands and enjoying the day as much as you are.

A bespoke service built on trust,
care and genuine love for dogs

Hello, I am Lana, the *slightly mad dog lady* behind Hounds of Honour.

I created this service for couples who feel exactly the same way I do about dogs. They are not just pets, **they are family**.

At home, I have two of my own, Max (a handsome Poochon) and Daisy (a fearless Sprocker), who are very much at the center of everything.

They saw me through some of the most challenging times in my life and are the reason I understand just how important it is to trust the person looking after your dog, especially on a day that means so much.

I also know that **every dog is different**. Some love attention, some prefer a quieter corner, and some are just there for the snacks and the fuss (that would be my dogs...).

That is why everything I do is **built around them**, as much as it is around you!

www.houndsofhonour.com

A completely bespoke experience

No two weddings are the same, and no two dogs are either.

Every package is **carefully tailored around your plans and your dog's personality**, needs, and what makes them feel most at ease.

Whether you would love them to walk down the aisle, be part of your photographs, greet your guests, or simply spend a few quiet moments with you away from the crowd, everything is thoughtfully planned in advance.

I work closely with you, your photographer and your venue coordinator to ensure everything runs smoothly on the day, whilst also making sure your dog has the space, care, and reassurance they need throughout the day.

Because sometimes the most challenging part is not just them being there...

It is them feeling happy and settled while they are.

@houndsofhonour

Tailored around you, your plans, and most importantly, your dog

Services can include:

- A dedicated meet and greet ahead of your wedding, so your dog feels comfortable and familiar with me.
- Ongoing consultations and planning, ensuring you know exactly when and where I will be with your dog throughout the day.
- Partial or full wedding day care, with calm and attentive handling from arrival through to departure.
- Support during key moments, including the ceremony, photographs, and guest interactions.
- Walks, breaks, and quiet time away from the crowd when needed.
- Behind the scenes moments captured, so you can see your dog's day from their perspective.
- A bespoke keepsake for your dog, including a personalised certificate of attendance, finished with their own paw print.
- Safe and comfortable transport.
- Late evening and overnight care where required.

Everything is flexible and built around you. Some couples need a few hours of support, others would not want their dog to leave their side all day. We will create something that feels just right for you and your dog.

As a guide, most couples choose support across the key moments of the day, which is typically **around £295**, with longer or more involved coverage tailored individually.

Memories you will never forget

There is something so special about having your dog there by your side on your wedding day.

The way they look at you, the excitement, the little moments

in between everything else going on.

It is often those unplanned, spontaneous moments that become the ones **you will treasure most.**

Seeing mum and dad for the first time!

Right where they belong. Part of the day, just like always

Kind words from my lovely couples

“

Choosing Lana as our chaperone was easily one of the best decisions we made. You can tell when someone is a true animal person, and our two (very clingy) pups couldn't have been happier spending the day with their new best friend. We were worried they would be confused and wanting to get to us all day, but we were so wrong. With Lana, both us and the dogs were completely at ease. We will be forever grateful for her help in making them part of our day.

”

“

Our wedding would not have been the same without our dog and it was so good to know he was in such safe hands. He had such a wonderful day, we would definitely use Hounds of Honour again in a heartbeat!

Sid, The Gathering Barn

”

“

Bentley was our main priority, and finding someone we trusted was our biggest task. We knew from the first consultation that we had found that person. So many of our guests commented on how lovely you were, and how well you fitted in. Even Bentley was sad when you left the next day! We truly cannot thank you enough.
